Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in June 2005 and WBCR was not observed. The stream did not meet the maximum or average depth criteria any of the 4 sites evaluated. Because of the overall shallow depth of the stream, the committee recommends removing the WBCR designation. However, because there were ATV tracks, shotgun shell sand broken clay targets, the committee recommends the stream be considered for Secondary Contact Recreation use.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
